Review books that you've read and then see  
the reviews on the catalog.*

### To submit reviews/ratings in the Online Catalog

1. On the online catalog, look up the title of the book you want to review.
2. On the results page, click the **title**. This will open the **Full Details** pop-up.
3. Click the **Review** button (top right side of page) on the **Summary** tab to select a rating or write a review.
4. If you are not logged on to your patron account, the **Account Log On** form opens. Enter your [username](#) or [barcode](#) and password, and click **Log On**.
5. The **Item Review** page opens displaying the item's title and author as well as fields to add a review and rating, as applicable.
6. Click the highest star you want to assign in the **Rating:** field. For instance, if you want to give a four-star rating, click the fourth star, and Atrium fills in the first four stars. Other patrons will see the filled in stars for this item record.  
**Note:** If needed, click the minus icon preceding the five stars to clear the rating.
7. Enter your text review in the **Review:** field.
8. Click **Save** to submit your feedback; otherwise, click **Go Back**. A **success** message displays, confirming that the review and/or rating was submitted.
9. Your review should be posted within one week.
